

Tapes

Double-sided tape SP 61321

Material: The double-sided tape SP 61321 is made with no base material. The acrylic adhesive is applied to the silicone liner.

Properties: The double-sided tape SP 61321 offers good adhesive strength even with the thin layer of the adhesive.

Applications: SP 61321 is preferably used to equip surface materials with an adhesive and produce laminate.

Colour: colourless

Delivery forms: The double sided tape SP 61321 is available with a length of 100 m. Other lengths upon customers request.

Storage conditions: The double-sided tape SP 61321 lasts for 6 months if stored cool and dry (15 – 20°C, <65% rel. RH).

Dr. Dietrich Müller GmbH

Double-sided tape SP 61321

Property	Unit	Value
Base material		no base material

Adhesive thickness	mm	0,050 ± 10%
Silicone liner thickness	mm	approx. 0,100
Adhesive type		Acrylic
Gluing capacity	N/10mm	5,5
Limit temperature	°C	155
Short-time load, 1 h	°C	180

Please note:

The information in this data sheet is based on our current knowledge and experience. They do not disengage the fabricator and the user from own tests and inspections because of the plenty of possible effects. There is no judicial binding assurance of certain properties or of the qualification for a concrete application in our declaration. We recommend consulting us in individual cases. The acceptor of our products has to observe possible industrial property rights as well as present laws by himself.
