

electrical insulation material

3M™ TufQUIN TFT 80 | FI 14140

Description: 3M™ TufQUIN TFT 80 | FI 14140 is, due to its composition of inorganic 3M TufQUIN insulation paper and polyesterfilm, a flexible laminate with a good dielectric and mechanical strength.

Properties: 3M™ TufQUIN TFT 80 | FI 14130 is, according to IEC 61249-2-21, halogen-free and certified for UL® class N (200° C). It offers an excellent resistance to partial discharge damage, long-term dielectric strength at high temperatures, mechanical strength, thermal conductivity as well as a good electrical strength. In addition, 3M™ TufQUIN TFT 80 | FI 14140 is highly moisture-resistant and has a distinguished absorption capacity for impregnating agent.

Application: 3M™ TufQUIN TFT 80 | FI 14140 is used for motors, coils and electromagnets. It's suitable, according to UL® 1446 and IEC 61857, for applications in electrical insulation systems. These papers are listed in the UL-Database (File-Number E65069 and E65007).

Colour: 3M™ TufQUIN TFT 80 | FI 14140 is white.

Delivery forms: 3M™ TufQUIN TFT 80 | FI 14140 is available in the thicknesses of 0,22 - 0,48 mm. It can be delivered as a die-cut or molded part, customized cut, tape or roll. Coatings are possible. More delivery forms upon customer request.
